

CHAMBER LOW CARBON

HELPING BUSINESSES GO GREEN

Programme

20.07.2018

Geoff Mason

Marketing Officer

What is it?

- A £2m European part funded, partnership programme providing a suite of FREE services aimed to help businesses improve energy and environmental efficiencies, introduce on site renewable energy generation and save money.
- To reduce the environmental and carbon footprint of Lancashire businesses
- To help businesses developing new low carbon technology to get it to the market and see it trialled and manufactured locally.
- To increase the competitiveness of Lancashire businesses
